

# Protect, optimize, and recruit with the Affluent Link Scanner

Your affiliate program has thousands of affiliate links that drive traffic and revenue. But manually protecting them from competitors and link rot — such as broken links and 404 errors — is challenging and time-consuming.

## Introducing Link Scanner

Automate competitive intelligence and optimize program performance with the only tool to help partnership teams eliminate link rot.

## Defend evergreen and reliable referral links

Keep the referral links that bring you consistent revenue in top shape.

## Measure advertiser Share of Voice (SOV) over time

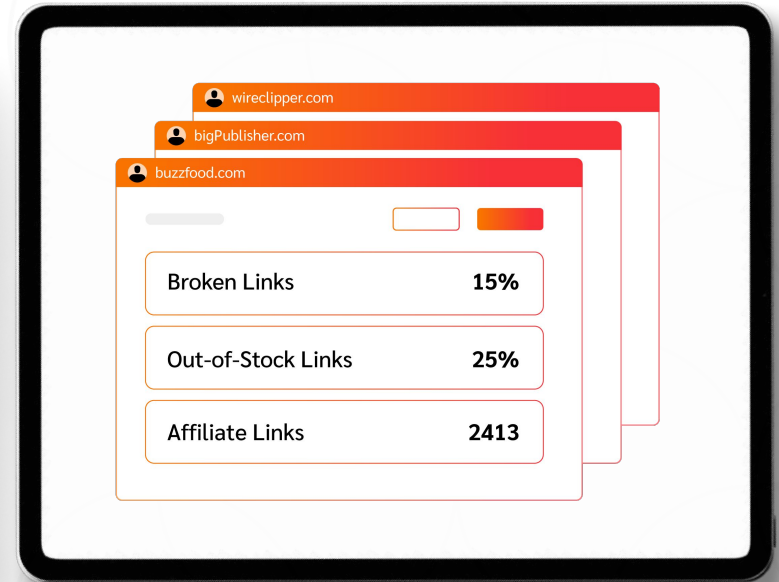

View all the affiliate links on a website to see how much of the footprint belongs to your brands.

# View all your affiliate links in one place

The Affluent Link Scanner automatically suggests which web pages to scan, finds all the affiliate links, and delivers actionable insights.

Take affiliate program management to the next level.

**Recover lost revenue** by fixing 404 errors and out-of-stock links.

**Automate competitive intelligence** to identify and capitalize on new opportunities.

**Discover and recruit new publishers** to consistently grow your programs.
